| Programa |
| Day 1: Our marvelous instrument for producing sounds; Focus on source-filter theory of speech production and anatomy of our speech instrument; How to change F0, intensity, duration, formants, voice quality, etc. |
| Day 2. Concatenating speech sounds. Focus on how we put syllables together in speech, speech rhythm, and prosodic units |
| Day 3. Daily life type communications with speech sounds. Focus on affective expression and emotion; how we use phonetic cues of F0, intensity, duration, formants, voice quality for communicating in various situations |
| Day 4: Cross-cultural studies. Focus on differences and similarities in expressions across different cultures |
